Listed as a sponsor or 'diversity diamond' <i>We are happy to provide you with more information about sponsorship or the possibility of presenting yourself as 'diversity diamond'</i>			

Charter Talent to the Top:

Around 200 organizations have already signed the Charter. This is the most convincing evidence, both within your organization as well as to 'the outside world', that you are effectively working on realizing more diversity. And it's proven to be very effective: our community members are more diverse than other organizations.

Monitoring report:

This report shows that you practice what you preach. The monitoring report provides practical and relevant information about the progress of diversity in your organization. In addition, you can benchmark your progress with that of other organizations within your industry.

Advice and best practices:

Expert's tailored advice from both Talent naar de Top and Opportunity in Bedrijf / Opportunity Advies, and the information and inspiration from the network events, will bring your organization to the next level.

Executive Search Code:

The Executive Search Code helps to obtain active and concrete support from an important player in our field: (executive) search firms. Our website lists a number of firms who have signed this code, showing their commitment in helping you find female talent.

Agenda setting:

Talent naar de Top ensures that diversity & inclusion remains on the political and social agenda, through PR and with the ambassadorship of several captains of industry (a.o. the "30% Club").

'Close to the action':

As a community member you are regularly informed about relevant issues. Together with our cooperation partner Opportunity in Bedrijf, we know what's at play (both in organizations as on a national level), which research is taking place and which effective practices have been implemented. For example, we are involved in the initiative topvrouwen.nl (VNO-NCW & Ministry of OCW)
